

Climate Response $h(T)$

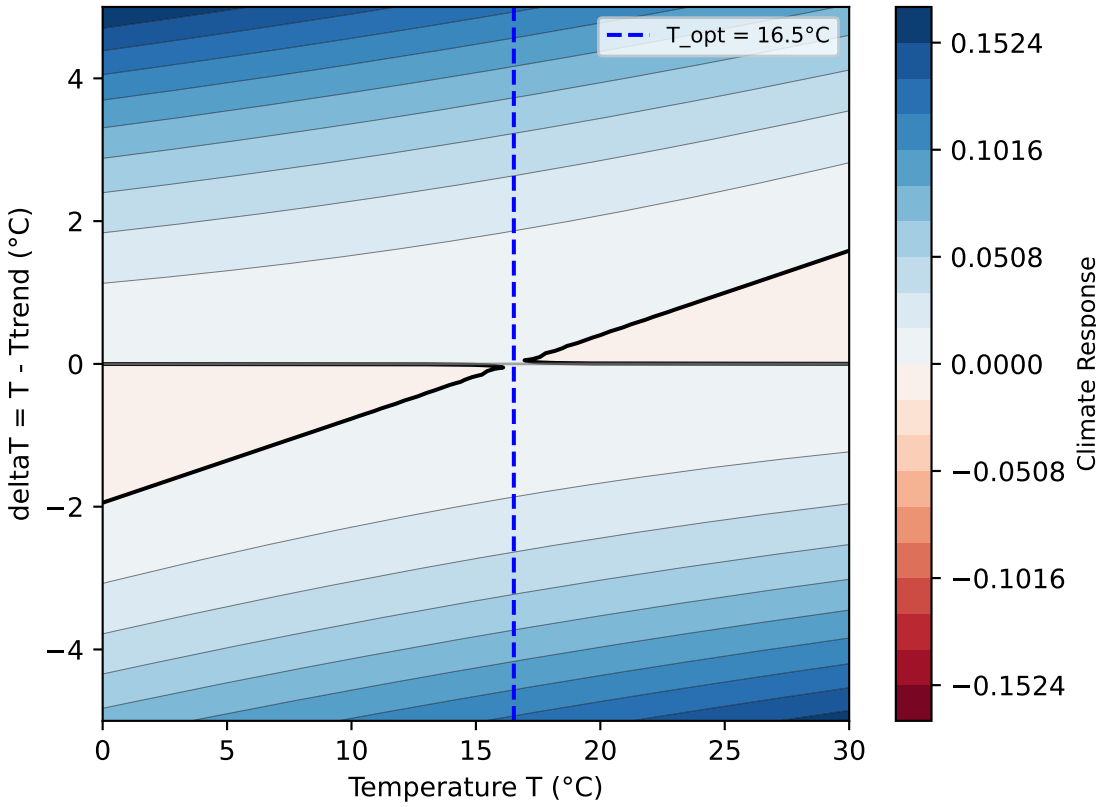

4: T/Quadratic Departure LOESS: Total Response $h(T)$

4: T/Quadratic Departure LOESS: Total - Trend ($x=T_{trend}$)

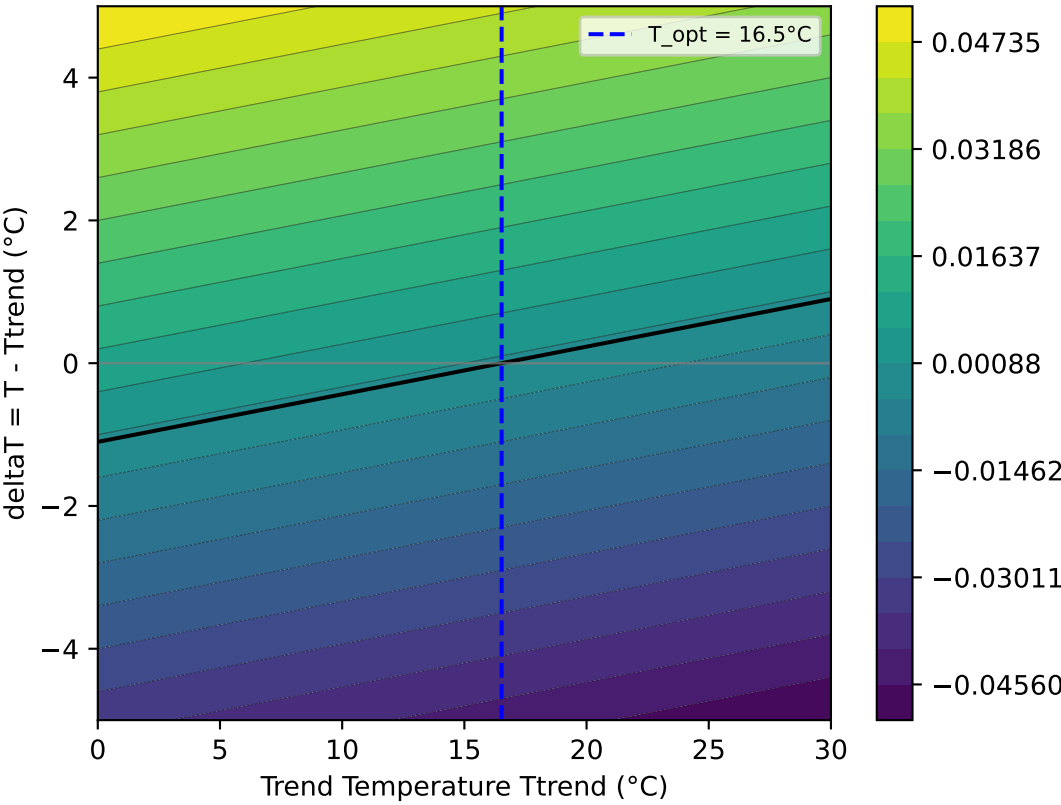

4: T/Quadratic Departure LOESS: Total - Trend ($x=T$)

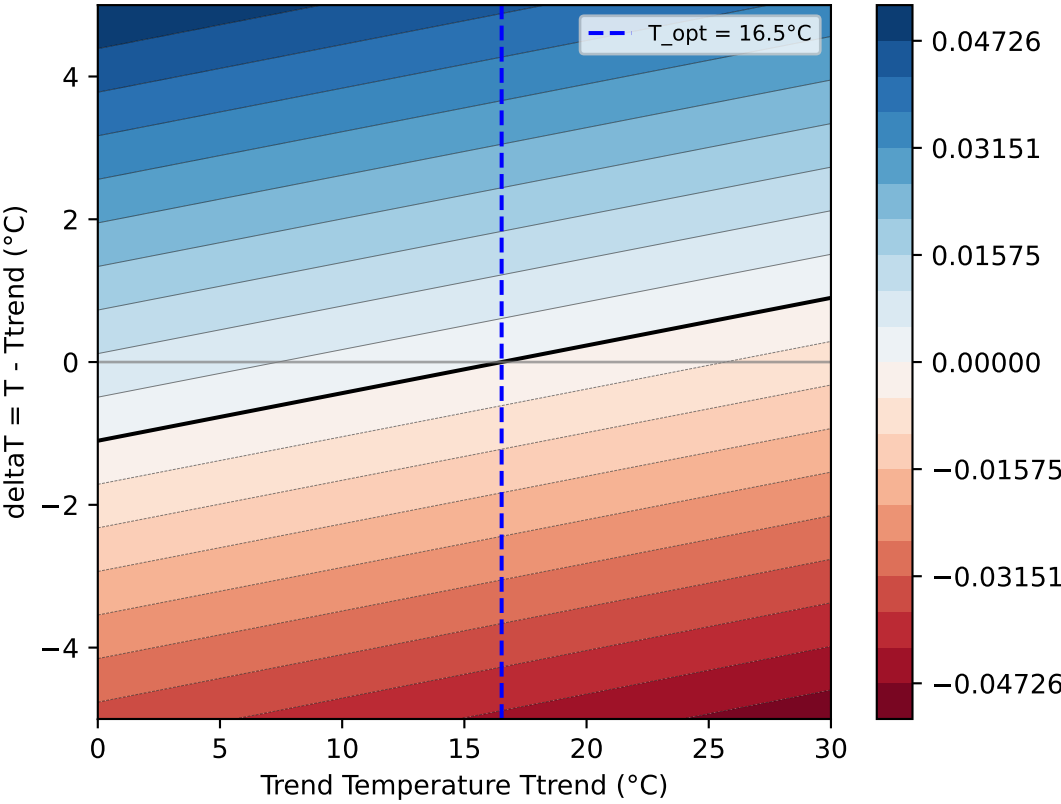

Climate Response Derivative dh/dT

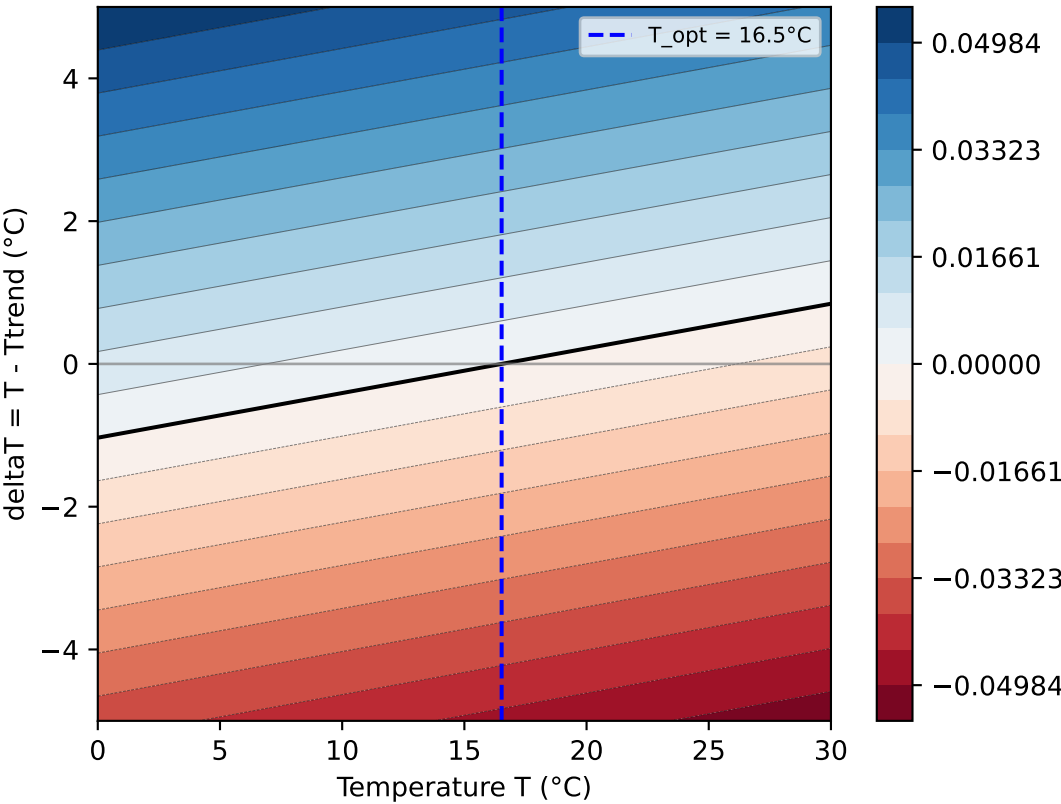

4: T/Quadratic Departure LOESS: Total Derivative dh/dT

4: T/Quadratic Departure LOESS: Total - Trend Derivative (x= T_{trend})

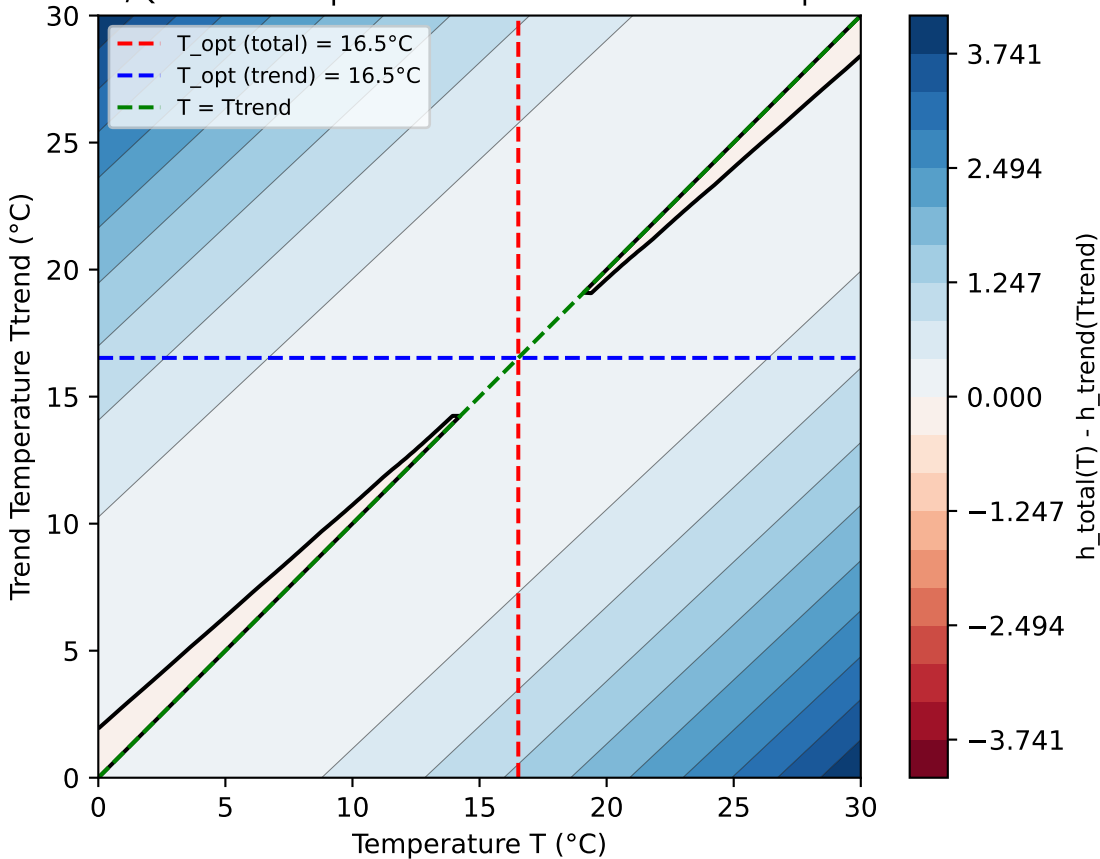

4: T/Quadratic Departure LOESS: Total - Trend Derivative (x=T)

Climate Response: T vs Ttrend

4: T/Quadratic Departure LOESS: Total - Trend Response

4: T/Quadratic Departure LOESS: Total - Trend Derivative
